

REMARKS

Claim 103 has been amended to be consistent with claim 1 (from which claim 103 depends), which recites that cardiomyogenesis is induced in a subject (*in vivo*), and to correct a typographical error.

In view of the preceding arguments and amendments, it is believed that the application is in condition for allowance, which action is respectfully requested.

The Commissioner is hereby authorized to charge any fees association with this response or credit any overpayment to Deposit Account No. 22-0261, citing Docket No. 42597-193226.

Respectfully submitted,

Dated: December 11, 2008
